Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Although megaprojects vary in terms of size and cost, they are all, by definition , expensive, public projects that attract a high level of interest and media coverage. Projects range from motorways, airports, stations, tunnels ,bridges, etc. to entire city complexes.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero-waste artificially-created city. Covering an area of six square kilometres, when it is completed in 2025 CE, it is expected to house more than 40,000 residents, 50,000 commuters, and 1,500 businesses involved in mainly environmentally-friendly products.

The current residents of Masdar City are all students at the Masdar Institute of Science and Technology, a university whose students are fully committed to finding solutions to the world's energy problems.

While the project has the support of many global, environmental and conservation organisations, there is some criticism of it. It is felt that, instead of building an artificial sustainable city, sustainability should be made a priority of existing cities.

1. There are two reasons for designing megaprojects. Write them down. (5 points)
2. The text provides many examples of megaprojects. Write down two of these examples. (5 points)
3. Write down the sentence which shows the present inhabitants of Masdar city. (5 points)
4. Find a word in the text which means 'the state of being able to continue forever, or for a very long time'. (5 points)
5. What does the underlined pronoun "it" refer to? (5 points)
6. A similar project to Masdar City would be successful in Jordan. Suggest two advantages of such a project to the people and the environment of Jordan. (5 points)

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2014 CE, 98 per cent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years. Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities.

The life expectancy figures show that Jordan's healthcare system is successful. In 1965CE, the average Jordanian's life expectancy was age 50. In 2017 CE, this average life expectancy had risen to 74.6. The low infant mortality rate, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

1. Jordanian community becomes healthier due to the advances of different fields .
Write down three of these fields. (5 points)
2. Two main factors have been contributing to Jordan's healthy population growth.
Write down these two factors. (5 points)
3. Find the phrase in the text that means " the length of time that a person or animal is expected to live". (5 points)
4. Quote the sentence which shows the impact of careful planning on health care. (5 points)
5. What does the underlined pronoun "its" refer to. (5 points)
6. The reputation of Jordanian doctors has spread in the region. Suggest three different reasons for the good reputation of Jordanian doctors. (5 points)
